The Parable of the Democratic Raft and the Battleship

Yesterday's headline news Soviet Russia changed leaders without warning and without any In France and Great Britain and the United States, not to mention are a thousand public arguments and a million rumors before the nation changes its Chief of State. That is because the people themselves have signaled a change. In France and Great Britain the action is an indirect one. presentatives are elected to the British Parliament or the French Assembly to speak the people's mind, and any time the Chief o State fails to command a majority he is dropped and some one else takes over. On occasion the representative body is dissolved and a national election called and then the people are voting

lirectly, in both Britain and Gere in the United States we vote irectly for President, as well as Representatives and Senators, and or a definite term in office. Whether the American or Continental variety it is still pure democracy in action. The world has confidence in these democratic governments because the world knows for a certainty that they speak for their people. But Russia is still ruled by whoover happens to be fastest with a gun or most skillful in organizing handful of committeemen in the Kremlin. The world recognizes this truth - and there lies Russia's vulnerability. For it was Viscount Bryce, the great English historian, who wrote that a democracy flounders about

like a raft, its people wet and confused and alarmed most of the time, yet the raft is virtually unsinkable; while on the other hand a dictatorship is like a great battleship, carrying, its people then it goes down suddenly some hight, and all aboard are lost. Viscount Bryce made observation after returning home to England from a tour of It is a comforting thought these perilous days - because
